

**Get rid of that old computer!**

Make room for that new flat screen TV!

**Free E-Waste Recycling Day**

Saturday, November 17<sup>th</sup>

Are you giving or getting a new computer, iPod, or flat screen TV for Christmas this year? Now's your chance to dispose of your old electronics before Santa brings a new one! But don't just toss it in the dumpster - recycle it for a healthier environment and safer community.

Salt Lake County, the Recycling Coalition of Utah, and the Utah Department of Environmental Quality are hosting a free electronics recycling day on:

Saturday, November 17<sup>th</sup>

From 9 am to 12 noon

Salt Lake Valley Transfer Station

3300 South 502 West

Many safe, common household electronics contain hazardous materials that are toxic when released into our environment. Recycling and reusing electronics protects our environment and keeps them out of our landfills.
